- Bishop J. W. Joyce, D. D.: "Live for Something."
- Rev. Chas. Harms, Lincoln, Nebr.: "40 Years Ago and Now."

INFORMATION.

CENTRAL WESLEYAN COLLEGE

was founded in the year 1864 by the Methodist Episcopal Church. It is denominational, but not sectarian. All courses are taught in English, excepting the theological. Thousands of young people of various denominations, both English and German, have availed themselves of the privileges here so liberally offered.

The Growth of the College during the forty years of its existence has been permanent and healthy. The number of patrons and friends has steadily increased. The enrollment during the present year ran over 300. Our successful past can but give us a new impetus to increased zeal and faithfulness in the important work of imparting a thorough education.

GENERAL PURPOSE.

It is the purpose of the College to furnish under Christian influence the best possible instruction and offer good facilities for thorough discipline and scholarship in all branches which its curricula announce. The Faculty regard the true function of teaching to be to help the student to think, so that he may be prepared to observe and plan for himself when he enters upon life's duties. Recognizing the fact that a large majority of those seeking a higher education have but limited means, the College authorities have reduced expenses as much as possible, so that the poorest need not be deprived of the benefits of a liberal education. No pains will be spared to develop the pure and the noble qualities in the student while the intellect is being disciplined and enriched with knowledge. To develop Christian manhood and womanhood is our highest aim. We trust that the blessing of God may continue to rest upon our efforts to build up an institution which will reflect credit upon the Church, the State, and the Home.

LOCATION AND BUILDINGS.

The College is located at Warrenton, Mo., sixty miles west of St. Louis, on the Wabash Railway, which makes connection with all prominent and intermediate points, North, South, East and West.

MAIN COLLEGE BUILDING.

KESSLER HALL (CONSERVATORY)

© 1910 C. C. ENG. CO.

JUBILEE CHAPEL

LADIES HOME.

The location is high and healthful, in a pleasant part of the State, on the dividing ridge, separating the Missouri and Mississippi rivers.

The College has a large, commodious three-story building, which supplies rooms for Recitation, Museum, Laboratory, Library, and Literary Society purposes.

Kessler Hall contains the Chapel and Concert Hall, and the Conservatory of Music.

Besides these two college buildings, the School has a *Ladies' Home*, a beautiful two-story brick building; *Eisenmayer Hall*, a new, commodious three-story brick dormitory for gentlemen, a well lighted and equipped gymnasium, and a large *church edifice*, for its use, for religious meetings and commencement exercises. All buildings are heated by steam and lighted by electricity.

The buildings are situated in a beautiful grove of maple and forest trees, and present a very attractive and home-like appearance.

The campus, containing 15 acres, affords ample room for play and exercise.

RECORDS OF EXAMINATION.

The student's record in any study is made up of a careful estimate of both his daily recitations and his examinations.

RECORDS FROM OTHER COLLEGES AND SCHOOLS.

Grades obtained in other colleges and academies are accepted provisionally, and students are classified according to these grades.

Grades of students coming from accredited high schools will be accepted without further examination. Grades in Physics, Botany, Zoology, and Chemistry, are considered incomplete if obtained in schools where laboratory work is not required.

Information concerning conduct and general progress will be sent to parents or guardians on request and when the Faculty deem it necessary.

DEGREES.

Four years are contemplated as the time necessary to complete the Classical, Philosophical, Scientific, Literary, or Normal Course of study. All candidates must possess a good moral character, and must have passed satisfactory examinations in the studies of their respective courses.

All candidates who obtain the required standard, will receive the degree of A.B., B.S., B.L., Ph.B., or B.S.D.

Bishop Henry Spellmeyer, D. D.,
who preached the Baccalaureate Sermon.

Candidates for the degree of A.M. or M.S. must apply to the President four weeks before the close of the school.

Diplomas are also granted to students completing the Music, Business, or German Course. The fee in each case is payable in advance.

RELIGIOUS CULTURE.

Chapel exercises, consisting of Scripture reading, singing and prayer, are held daily, except Saturday and Sunday, in the College Chapel, which all students are required to attend.

Students are also required to attend public worship in one of the churches once on Sunday, at such place as they or their parents or guardians may select, and are encouraged to attend the Sunday School and the weekly meetings of the Epworth League, and the Young Men's and Young Women's Christian Association, of which a large number of our students are members. Services are held regularly in the English and German M. E. and other churches.

SPECIAL FEATURE.

A characteristic feature of the College is the attention which is paid to German. Its facilities for giving the students not only a theoretical, but a practical mastery of the language are unequaled in any college in the West. German is used as a medium of instruction in the German classes. One of the literary societies of the College conducts its exercises entirely in the German language.

LIBRARY.

The library contains over 8,000 volumes, to which there is a card catalogue of over 12,000 entries. There is also a Poole' Index to the magazines, making them accessible to all.

A recent step forward is the formation in the library of the "H. A. Geitz Department of American History." This is the result of the generosity of Dr. H. A. Geitz of St. Louis, who annually contributes a handsome sum for its maintenance and enlargement. A few years will make this the most complete and valuable part of the library. To Dr. Geitz we express our sincere thanks.

READING ROOM.

A special room has been arranged for the Reading Room on the second floor of the College Building, where students have easy access to the current literature of the day. A large number of magazines and periodicals, including several dailies, are always on file.

Section of Library in Main College Building.

LECTURES AND TALKS.

A Lecture Course is sustained by the College, giving the students opportunity to hear a good lecture by some prominent speaker each month of the school year free of charge ; and weekly "Chapel Talks" are given by members of the Faculty and others.

LABORATORY.

The Chemical Laboratory has been improved. It is now well furnished with apparatus necessary for the performance of experiments. Some fine additions were also made to the Physical Laboratory recently, so that the facilities for laboratory practice are good. A small fee is charged for the use of apparatus and chemicals.

MUSEUM.

The Museum was recently transferred from its small quarters into a large room especially fitted up with shelving and cases for this purpose, making it possible to display many of the specimens in such a way as to increase their usefulness.

The Museum contains a large number of specimens, illustrating mineralogy, geology, zoology, and applied sciences. A skeleton and charts are provided for teaching physiology, and a herbarium for students in botany.

The collections have again outgrown the capacity of the room, and a larger space must soon be provided.

Friends of the school have contributed quite liberally to this department, and it is hoped that they will continue to assist us in making our collections as complete as possible.

SOCIETIES.

Four Societies enable students to engage in various kinds of literary exercises, and to gain practically a familiarity with parliamentary law.

The *Goethenia Society* consists of young men who, in all their society exercises, use only the English language.

The *Germania Verein*, consisting also of young men, permits only German to be used within its hall.

The *Garfield Society* offers special advantages to younger students. The English and German languages are used.

The *Philomathia Society* gives the young ladies an opportunity to gain literary and parliamentary skill.

The *Oratorical Associations*, both English and German, to which all regular collegiate students belong, who have been in attendance at College for one year, offer opportunity for and give special incentive to oratorical work in the friendly contests which are held annually.

The *Prohibition League* has held regular public meetings during the year. It keeps abreast of the temperance movements, holds annual contests, and sends the successful contestant to the Prohibition State Contest.

The societies are in a flourishing condition, and are considered a very important addition to the ordinary school work.

ORATORICAL PRIZES.

Through the kindness of the Kriege Family and another friend of the school, four prizes are offered annually, for the best orations in German and English, two of \$15 each; and two of \$10 each; the best English and the best German receiving each the

Goethenia Literary Society Hall.
(Hall of one of the four Literary Societies.)

first, and the next best in each receiving the second prizes. In consequence of these offers, friendly contests are held annually, when specially appointed judges mark upon the thought, style, and delivery of the orations, and decide which are to receive the prizes.

COLLEGE PUBLICATIONS.

The *Central Wesleyan Star* is published monthly during the school year. It is the organ of the Faculty and the students. Its object is to give information in regard to the condition of the College in general and in a measure, to represent the various departments.

It also contains original articles on education by competent writers and serves as a medium through which the ex-students exchange views and keep up their friendly relation with one another and their *alma mater*. Subscription price: fifty cents per annum. Catalogues and Summer School Circulars are published annually and sent gratis on application.

BOOKS.

All text-books, as well as stationery, are kept in the College building, and are sold to students below retail price. Second-hand books can also be had at a reduction.

PHYSICAL EXERCISES AND HEALTH.

Our campus and grounds are ample and well adapted to outdoor sports, and our students are encouraged to take the requisite amount of physical exercise so necessary to keep the body in vigorous health.

The Faculty exercises a constant watchfulness over the health of the students. The number of studies, which they are allowed to take, is carefully considered with reference to their strength and health. Advice is given, too, concerning proper exercise, regular habits, etc. They have the use of a well-equipped gymnasium, under a physical director, for a small sum.

Jumping, running, and turning exercises are indulged in freely. Baseball and basket ball games are engaged in to a moderate degree. Croquet and Lawn Tennis grounds have been prepared near the college buildings.

The surrounding country is romantic and affords restful outings for students, which are permitted under the supervision of the Faculty.

The student, who wants exercise in the way of work, can saw wood, do gardening, carpentering, and secure other odd jobs, which though not so pleasant as the athletic games, nevertheless help to give health to the body and cash to the needy purse.

GENERAL COUNSEL

TO THOSE WHO HAVE DECIDED TO ATTEND OUR SCHOOL.

Arrange your plans to begin with a term, if possible. Come with the determination of giving yourself wholly to study. Expect to meet some trials, but prepare to meet them with courage and they will disappear. Endeavor to stand high in conduct and study, and you will receive the encouragement of kind and faithful teachers. Endeavor to stay to the end of every term you attend.

What a pupil should do on arriving at Warrenton or Truesdale.

Ask for some college representative at the depot, who will assist you. If you should not meet any one from the college,

Gymnasium.

leave your trunk, retain your check, and from Warrenton Station go south two blocks and east four blocks to the college, enter the office of the President, first door to your right in the main College Building, or call on Professor Rinkel in the Ladies' Home on the opposite side of the street, and you will be shown immediate attention. From the Truesdale station go west about one-fourth of a mile, where you will find the College buildings.

SELF-HELP.

Students find opportunity to reduce their expenses by working part of their time.

Not a few students have "earned their way" through College here. Others succeed in working their way in part. Often students find opportunity to earn money during the summer. Competent and needy students sometimes discontinue their studies for a year, or so, and teach, and thus earn sufficient to finish their course.

The Faculty use their influence in securing positions temporarily or permanently for their students.

CONDITIONS OF ADMISSION.

Central Wesleyan College admits students of both sexes to all its courses.

Pupils may be admitted to the classes of the Preparatory Department at all times; but applicants for admission to classes of advanced courses should enter at the opening of a term, or if possible, at the beginning of the year.

Grades will be accepted, provisionally, for work done in high schools, academies, and other colleges.

GOVERNMENT.

Registration by a student will be regarded as a pledge on his part, to comply with the rules and regulations of the school.

Students are required to matriculate before they are entitled to the privileges of the school.

Tuition must be paid in advance per term. If a student is absent over two weeks at one time on account of sickness or for some other good reason, proper reduction will be made for the time of absence.

In general, students are treated as self-respecting gentlemen and ladies, and are held to the requirements and accorded the liberties of good society. It is the aim of the Faculty to develop in the students the principles of self-government. It requires good conduct and faithful work and relies upon the honor and moral sense of the students to secure these ends. No one will be permitted to remain in the school whose connection with it is injurious to others or unprofitable to himself. Students must board and room at such places as meet the approval of the Faculty. Students of different sexes are not permitted to room in the same building.

The improprieties of deportment of which the Faculty takes account include the following: Absence from recitation, chapel or from the city without excuse and from church services, more than one Sabbath; absence from rooms at night or attendance at such entertainments as do not meet the approval of the Faculty; non-observance of study hours from 7:30 to 11:45 a. m., from 1:30 to 4:30 p. m., and from 7 to 9:30 p. m.; the use of ardent spirits; the use of tobacco on the college grounds or in the buildings; card-playing, theater-going, gambling, rude or ungentlemanly or unlady-like conduct in or about the college buildings, on the streets, or at boarding places; receiving instruction from any one outside of the college without special permission; violation of any oral rules of the Faculty.

Y. M. C. A. and Y. W. C. A. Mission Study Classes. (Five Teachers in Center.)

ACCREDITED SCHOOLS,

The following schools have one or more courses which meet college entrance requirements and their graduates will be admitted to one of the college courses without examination upon the presentation of a certificate signed by the principal or other officer of said school showing that they have completed the work laid down in the course upon which the school was accredited. Those not having finished a high school course will be credited for work done without examination.

Belleville, Ill., High School,—Brookfield High School,—Buchanan College (Troy),—California High School,—De Soto High School,—Hannibal High School,—Hermann High School,—Higginsville High School,—Kirkwood High School,—Louisiana High School,—Marionville Collegiate Institute,—Mexico High School,—Moberly High School,—Montgomery High School,—St. Louis High School,—St. Charles High School,—Wellsville High School,—Boonville High School,—Kemper Military Academy,—Maryville Seminary,—Memphis High School,—North Missouri Academy,—Sedalia High School,—Shelbina High School,—Shelbyville High School,—Vandalia High School,—Wentzville High School,—Enterprise Normal Academy, Enterprise, Kans.

Boarding Department.

PROF. J. M. RINKEL, Superintendent.

The charges for board, light and fuel are included in the price for board, making the total expense as low as in institutions where the students board themselves in clubs and saving them much unnecessary annoyance. In the catalogues of such institutions generally the cost of board only is given, and nothing is said about the expense for room rent, furniture, fuel, light, beds and beddings, and washing of the latter. Students also avoid all the care, trouble, and inconveniences which pertain to a boarding club and can devote their whole time to study. Securing supplies, cooks, kitchen furniture, fuel, etc., give them no care or anxiety whatever.

STUDENTS' HOME.—(Eisenmayer Hall.)

The College is in possession of large, commodious buildings, containing private rooms for pupils, and hence a large number of students can have their rooms and get their meals at the institution, and so be entirely under the supervision of the Faculty and Officers of the school. Each room is supplied with the necessary furniture. Students are expected to bring with them: 2 bed sheets, 2 pillow

Kessler Hall.

Eisenmayer Hall.

cases, 2 towels and 1 pillow. The rooms are heated by steam and lighted by electricity. Students are expected to take the room assigned them. Change of room can take place at any time by consent or request of the Superintendent of Boarding Department. Students may room alone by paying an additional price. The Boarding Department and rooms for students are in close proximity to the College, requiring little or no exposure in winter, and surrounded by pleasant grounds and beautiful shade trees, making it delightful in warm weather.

LADIES' HOME.

This is a large and commodious brick structure, heated by steam and lighted by electricity. It is beautifully situated, has nicely furnished rooms and offers to young ladies an agreeable and pleasant home. They are under the special care of a matron, and it is therefore desirable to have, as nearly as possible, all boarding here.

For further information regarding boarding and lodging, write to Prof. J. M. Rinkel, Warrenton, Mo.

CHANGE OF BOARDING PLACE.

All contemplated changes of boarding places by students rooming in the Ladies' Home, Eisenmayer Hall or elsewhere, must be reported to the President one week before the change is to be made.

DEPOSIT OF MONEY.

Money can be deposited with the President for safe-keeping. Parents will do well to note this fact. For many reasons, it is not good for young persons to have control of large sums of money. The consequences are generally evil.

DISCIPLINE.

The discipline of the school is mild and in accordance with moral and Christian principles. Unnecessary strictness and severity will be avoided. In cases where pupils refuse to be governed by mild means, and admonitions, warnings and reprimands are disregarded, suspension, dismissal, or expulsion will be resorted to, in order to preserve the good name of the school, and to prevent others from being injured by their bad example.

We can assure parents and children, pastors and societies, that we earnestly seek the good of those entrusted to our care, and that the results of our methods have been good and blessed of God.

Any further information in regard to the College or any of its departments will be gladly given. The correspondence of all interested parties is therefore earnestly solicited.

GEO. B. ADDICKS President,
WARRENTON, MO.

Ladies' Home.

Dining Room in Ladies' Home.

EXPENSES.

Tuition and incidentals are payable in advance by the Term. Students discontinuing during a Term for a good reason will be charged Tuition only according to the number of weeks in attendance, if absent two weeks or more.

INSTRUCTION, per Term.

A. INCIDENTALS, PER TERM—for all Students	-	-	-	1.00
B. IN COURSES—General Preparatory Course	-	-	-	\$ 6.00

COLLEGE OF LIBERAL ARTS.

For unconditional admission the following subjects are required:

I. LATIN: *a.* Cicero, five orations.—*b.* Virgil's *Æneid*, six books.—*c.* Introduction to Latin prose composition, Collar and Daniel or an equivalent.—*d.* Caesar, four books.—*e.* Latin Lessons, Collar and Daniel or an equivalent.—*f.* Latin Grammar, Allen and Greenough, Bennett or an equivalent.

II. GREEK: *a.* Xenophon's *Anabasis*, one book.—*b.* First Lessons, Harper or an equivalent.—*c.* Greek Grammar, Goodwin or an equivalent.

III. GERMAN: *a.* Grammar and easy prose.—*b.* Translating and Composition.—*c.* Reading at sight (3 years).

IV. MATHEMATICS: *a.* Plane Geometry.—*b.* Solid Geometry.—*c.* Algebra, Wentworth or an equivalent.—*d.* Arithmetic, including the Metric System.

V. ENGLISH: *a.* Elementary Rhetoric.—*b.* English Classics.—*c.* English Grammar and Analysis.—*d.* Composition.

VI. HISTORY: *a.* Ancient History.—*b.* Elements of U. S. History.—*c.* Civil Government.

VII. NATURAL SCIENCES: *a.* Physical Geography.—*b.* Physiology.

Beginning Greek is also offered in the College Course.

Those preparing for the classical course may omit group III. For the Philosophical or Scientific and Literary Course, omit group II. For the Scientific and Literary Course omit *a.* and *b.* of group I. and group II.

CURRICULA.

Central Wesleyan College offers to her students courses of study in the following subjects: Latin, Greek, Modern Languages, Mathematics, Astronomy, Chemistry, Physics, Biology, English Language, English Literature, History, Drawing, English Bible, and Philosophy, including Psychology, Ethics, Economics, and Civics.

Four years of study are required to complete profitably the courses leading respectively to the degrees of Bachelor of Arts, Bachelor of Philosophy, Bachelor of Science, and Bachelor of Literature.

The nature of the work, as well as the time spent in each course, is indicated under the appropriate heads in Departments of Instruction. One daily exercise per week requiring on an average two hours for preparation and recitation is called *one term hour*, and 320 term hours are required for graduation. THUS: 4 times 5 equals 20 week hours per term; 4 times 20 equals 80 per year, 4 times 80 equals 320 per 4 years.

I. MATHEMATICS.

PROFESSOR FRICK.

A thorough knowledge of the principles of Arithmetic, Elementary Algebra to Quadratics and Geometry, both plane and solid, is required for entrance into the Freshman year of this course. Higher Algebra is studied during the Freshman year. Five periods per week during the entire year are required.

Five periods per week of the entire Sophomore year are devoted to Trigonometry (plane and spherical) and Surveying with Applications and field work with compass and transit.

During the first semester five periods per week of the Junior year are devoted to the study of Analytic Geometry, including plane loci, loci in space, and transformation of co-ordinates. Five periods per week of the entire second semester are applied to the study of the Differential and Integral Calculus.

II. NATURAL SCIENCE.

PROFESSOR EBELING AND PROFESSOR FRICK.

One semester's work, five periods per week, is required in both Physical Geography and Physiology, for entrance in the Freshman year. Zoology with laboratory practice is studied during the first semester of the Freshmen year. The remainder of the year is devoted to Botany. During the early part of the course, laboratory practice is devoted to the study of seeds and germination and the drawing of plant structure. The latter part of the course is devoted to the analysis of flowers, and collection, classification and preservation of Plants. Our Museum collection of Animals and the Herbarium are freely used.

Physics is studied during the entire Sophomore year, five periods per week, with laboratory practice, two periods per week.

Chemistry is studied during the entire Junior year, five periods per week, with laboratory practice, four periods per week.

Geology is studied the first half of Senior year. Laboratory practice consists in Field work and study and determination of fossils and minerals in which our Museum collections of Minerals and Fossils are freely used.

The second semester of the year is devoted to the study of Astronomy. During favorable evenings the constellations are studied and the planets, star clusters, double stars, and nebula are viewed with a six-foot refracting telescope with five-inch objective. The sun and moon are also studied with the telescope.

III. PHILOSOPHY AND ETHICS.

PROFESSOR ADDICKS, KRIEGE AND WEIFFENBACH.

1. Psychology.—(a) Subject Matter and Method; Consciousness. (b) Knowledge; Elements of Knowledge, considered under General Sensation and Special Senses; Possession of Knowledge; Perception, Association. Attention, Retention; Stages of Knowledge; Perception, Memory, Imagination, Thinking, Intuition. (c) Feeling; Kinds of Feeling—Sensation, Formal, Intellectual, Aesthetic, Personal. (d) Will: Impulses, Volition, Physical, Prudential and Moral Control.

2. History of Philosophy.—The field of Ancient and Modern Philosophy is covered in three terms. Schwegler and Haven are used.

3. Ethics.—Scope of Ethics, Relation to other Senses, Prologomena (Desire and Will, Motive and Intention, Character and Conduct); Theories of the Moral Standard, The Moral Life (McKenzie and Paulsen).

4. Theism.—Required for Seniors. (Fischer and Bowne.)

IV. LATIN.

PROFESSOR WELLEMAYER.

Freshman Preparatory.—Collar & Daniel's First Year Latin or equivalent, followed by selected anecdotes, fables, letters with exercises in writing of Latin throughout the year.

Junior Preparatory.—Selections from the Commentaries of Caesar equivalent in amount to four full books, with at least two Orationes of Cicero. Daily exercises in reading at sight, translation at hearing, and writing of Latin throughout the year.

Senior Preparatory.—Select Orationes of Cicero, at least three, followed by Virgil's Aeneid six books, or selections equivalent. Reviews at hearing, written translations and comparative studies in English literature a feature of this year's work.

Freshman.—Livy, Selections from Books I. and II. or XXI. and XXII., for rapid reading, special attention to rapid acquiring of thought from Latin page. Horace's Odes and Epodes with exercises in Prosody; emphasis on oral reading. Cicero de Senectute or de Amicitia completes this year's work.

Sophomore.—Tacitus Agricola and Germania or Selections from Annals, followed by Plautus, the Trinummi and Captivi. Rapid reading and interpretation of Authors read.

The aim of the whole course is the attainment of the ability to read with facility and enjoy the masterpieces of Latin Literature.

V. GREEK.

PROFESSORS WELLEMAYER AND WEIFFENBACH.

Senior Preparatory.—White's First Greek Book, followed by the first book of Xenophon's Anabasis, with Exercises in Vocabulary based on comparison of roots.

Freshmen.—Anabasis continued, completing at least four books with exercises in writing of Greek, sight reading, translation at hearing and Reviews of Grammatical Forms and Syntax. In the second semester Homer's Iliad is read, at least three books or selections equivalent. Emphasis on Oral Reading and Enlarging vocabulary.

Sophomore.—Attic Oratory.—Selected Orationes of Lysias read and interpreted in relation to their historical setting, during the first semester. The Philippics of Demosthenes or The Oration de Corona with Selections from the Oration of Aeschines in the last semester, with exercises in writing of Greek on special points of Syntax throughout the year.

Junior.—Plato's Apology and Crito, or Xen. Memorabilia during the first semester. Introduction to Attic Tragedy through selected plays of Sophocles or Euripides, in the second semester.

In Greek as in Latin the aim constantly held before the pupil is ability to read with ease and enjoyment the masterpieces of Greek Literature.

VI. BIBLE STUDY.

PRESIDENT ADDICKS AND PROFESSOR STUECKEMANN.

English Bible.—One year and two terms in all Collegiate courses.—Sacred History.—Essentials of Christianity.—Evidence of Revealed Religion.

For Theological Course see German catalogue.

VII. ECONOMICS AND SOCIOLOGY.

PRESIDENT ADDICKS.

Practical Economics.—A course in Political Economy, for the study of economic problems of the day. Relation of state-help to self-help; labor unions, tariff, protection, industrial combinations. Money and banking.

Sociology.—History and Principles of Social Sciences.

VIII. GERMAN LANGUAGE AND LITERATURE.

PROFESSOR RINKEL.

1. Exercises in translating and easy conversation.
2. Elementary course in modern German and conversation continued.
3. German Maerchen and Erzählungen. Conversation continued through the rest of the course. Hermann und Dorothea.
4. Advanced German Grammar. Harris' Composition and Irving.
5. Schiller's Maria Stuart, Goethe's Iphigenia, Shakespeare's Julius Caesar.
6. Rhetoric and Composition.
7. History of German Literature. History of Germany.
(Each course requires one year.)

IX. ENGLISH LANGUAGE AND LITERATURE.

PROFESSOR VOSHOLL.

1. In the Preparatory Department a thorough course is given in elementary and advanced Grammar, including the recognition of parts of speech, a drill in forms, the use of phrases and clauses, the parsing of words, and the analysis of sentences. Written work is required to place pupils in complete possession of what they are taught. Some of the simpler classics are used to enforce grammatical principles (2 years).
2. Elementary Rhetoric constantly illustrated by standard authors; composition, largely based on the required readings (one year).
3. Higher Rhetoric and Literature. Study of narration, description, exposition, argumentation, based on literary masterpieces. Composition work during the course (one year).
4. History of Literature. Comprehensive study of standard English and American authors and the history of English Literature (one year).
5. Rhetorical Exercises, consisting of Essays, Theses, Orations (one year).
6. Elocution. Pronunciation and Emphasis, forms of voice, quality of voice, stress, force, declamation and readings (one semester).

X. HISTORY.

PROFESSOR VOSHOLL AND PROFESSOR RINKEL

The course in the Preparatory Department includes the history of the United States and of the State of Missouri, and a study of the state and general governments. Much use is made of the very abundant material in the Geitz U. S. History Department in the library.

The college courses vary somewhat according to the needs and preferences of classes. The work begins with a general view of the ancient nations, especially Greece and Rome. Then there is a survey of mediaeval and modern history, followed by special courses on Germany, England, or the United States (three years).

RHETORICAL WORK.

I. SENIOR CLASS.

Each member of the Senior Class will be required to prepare an oration of about one thousand words on an assigned subject the third term of the school year, to be delivered before the school in connection with the morning chapel exercises.

II. JUNIOR CLASS.

Required work: One thesis each the second and fourth terms, of about eight hundred words, by each member of the Junior Class on assigned subjects, to be read in connection with the morning chapel exercises. A like thesis will be required the third term of Juniors, who do not participate in the literary work of the Junior Exhibition, which is under the supervision of the Faculty.

III. SOPHOMORE AND FRESHMEN CLASSES.

Sophomores and Freshmen are required to deliver a declamation the second term, read an essay of six hundred words or deliver a declamation the third term, and read an essay of six hundred words the fourth term before the school in connection with the morning chapel exercises.

IV. WEEKLY ESSAYS.

All students, except the Seniors, are required to write an essay each week, character and length in each case to be decided by the grade of the student.

These rhetorical exercises prove very helpful to students, in giving them ability to express their thoughts on paper and freedom in public speech, both of which are among the necessary requirements of professional and commercial life today.

READING COURSE.

Few students have had an opportunity, before going to college, to form a taste for good reading. At college they may devote themselves so exclusively to their text-books that here, too, they fail to acquire that love for literature, which is so essential to real culture. To partially meet this difficulty, a course of parallel reading is required.

For the next year the books are as follows:

MIDDLE PREPARATORY.

First Term: Franklin's Autobiography.

Second Term: Uncle Tom's Cabin.

Third Term: Irving's Sketch Book.

Fourth Term: Longfellow's Evangeline.

SENIOR PREPARATORY.

First Term: Gods and Heroes, by R. E. Francillon.

Second Term: Dickens' David Copperfield.

Third Term: Ruskin's Sesame and Lilies.

Fourth Term: Arnold's Sohrab and Rustum.

FOR FRESHMEN.

First Term: Addison's De Coverly Papers.

Second Term: Scott's Ivanhoe.

Third Term: Selected Essays from Macaulay.

Fourth Term: Shakespeare's Julius Caesar.

FOR SOPHOMORES.

First Term: Selections from Wordsworth.

Second Term: George Eliott's Silas Warner.

Third Term: Webster's Bunker Hill Oration.

Fourth Term: Shakespeare's Merchant of Venice.

The German Department.

The German Course is intended not only for English speaking students, but it is also especially adapted to the needs of German young people who desire to gain a thorough knowledge of their mother tongue. English speaking students who take the course will become familiar not only with the principles of the language, but they will in a few years acquire the power to use the language practically. Some of our students have gained such a mastery of German in two years that they were able to join advanced German classes with German students who used the language exclusively in recitations. They were also able to take part readily in German conversation. Young people of German parentage, whose German is not of the best, have an opportunity here to become proficient in the use of the language so that they can converse in it easily and correctly. They study the grammatical structure and get some insight into the riches of German literature and often acquire such a love for these studies that they continue exploring these interesting fields. It is hardly necessary to call attention to the importance

of a knowledge of German, and yet it may be of interest to note that young men who desire to continue studies along special lines at the university, will find a knowledge of German of more value than that of any other language ancient or modern. It is also a matter of special pride to us that our students are so well received at universities on account of their knowledge of German, and are for the same reason so favorably recommended for scholarships and important positions. Those who complete the German course are entitled to a certificate testifying to their proficiency.

College Preparatory Department.

(Academic.)

COURSES OF STUDY.

The courses are maintained with the two-fold design: First of affording opportunity for those who desire more thoroughly to acquaint themselves with the elementary branches; and second, of furnishing a thorough and complete preparatory training to those students who design taking either of the regular college courses, but who are not sufficiently advanced to enter upon college work.

The lower, or General Preparatory Course, is arranged to meet the wants of students coming from our common schools, beginning with the branches taught there and continuing with the higher academic studies.

The College Preparatory or Academic Course, includes Latin and Greek, or German, as also mathematical and scientific studies, preparatory to entering the college courses, but these need not all be taken by students, who do not desire to enter a college course, but wish to take select studies.

Classes in the more important elementary branches, such as Arithmetic, Grammar, Geography, United States History, are carried on at all times, thus affording opportunity for drill and review.

The classes of this department recite in the same building with the college classes and have substantially the same Faculty. The students are under the same government and have the use of the Library and Reading Room and apparatus and are admitted to certain literary societies.

The Faculty holds the opinion that it is very important for the student to begin aright and thoroughly master the more elementary studies. Hence especial care is exercised that the instruction in the academic department shall be thorough and systematic. These courses of studies contain as good a selection of studies as can well be made for the time covered. The plan of department work is maintained, so that classes are taught by teachers who bring to the class-room the proficiency and enthusiasm of concentrated study.

NORMAL DEPARTMENT.

Prof. HENRY VOSHOLL, Principal.

COURSE OF STUDY.

A special object of this institution being to educate teachers for our common and high schools, as well as for academies and colleges, the Normal Course has been arranged according to the highest requirements of the State for Normal instruction. It has been arranged so as to contain all the common branches in the first two years, which fit students for teaching in our common schools, and to include all the more practical higher branches in the third and fourth years, which enable graduates from this course to instruct in high schools and academies. Students pursuing a normal course often wish to take other than strictly normal studies, such as music, languages, or sciences, not taught in normal schools, preparatory to entering upon some other profession eventually. They find ample opportunity to take up these extra branches here in the College of Liberal Arts, or in the Conservatory of Music.

PRACTICE TEACHING.

A most valuable feature of this department is the actual practice which students have in conducting classes in different grades in the Orphan School. No other test will so satisfactorily show, whether a young man or a young woman will be a good teacher. A student may understand theories and methods and be able to discuss the same and yet lack discipline, and those other qualities which go to make a successful teacher. In this department he has opportunity to observe and test methods already studied. Care is taken to lead the pupil teacher to conduct his own classes, settle his own difficulties in discipline and instruction, meet the responsibility which would later come to him in his own school. The children are only a means to an end and in justice to them the teacher must realize that unless he is benefiting the children, he is not benefiting himself. The value of such instruction under competent instructors can not be over-estimated.

SUMMER SCHOOL.

(Approved by the State Board of Education.)

FACULTY.

(Approved by the State Board of Education.)

GEO. B. ADDICKS, A. M., President.

HENRY VOSHOLL, A. M., Director and Professor of Pedagogy.

J. H. FRICK, A. M., Professor of Mathematics.

C. L. WELLEMAYER, A. B., Professor of History.

A. W. EBELING, A. M., M. D., Professor of Sciences.

C. J. STUECKEMANN, A. M., Professor of English.

OTHER TEACHERS will be employed according to the needs of the students.

GRADES ACCEPTED BY STATE AUTHORITIES.

This Summer School has been duly approved by the State. Grades made for first and second grade certificates are accepted by the State Superintendent and the County Boards of Education in the State in lieu of examinations.

SUBJECTS TAUGHT.

Five departments are maintained, namely. Pedagogy, Mathematics, English, History, and Science. Besides these subjects common branches are taught and opportunity offered to complete courses for which credit will be given upon the college books.

GRADES GIVEN.

According to the new school law, grades in the following subjects shall be accepted by the State Superintendent of Public Schools and the County Boards of Education when properly certified to by the instructors of the Summer School: (a) Algebra, including as much as is given in the first 298 pages of Milne's High School Algebra. (b) English, including the subject matter and careful study of one selection under each subdivision of Webster's Composition and Literature, one of the books selected for the Teachers' Reading Course, for 1905, or its equivalent. (c) His-

tory, the equivalent of Meyer's Ancient; or the equivalent of Meyer's Medæval and Modern; or the equivalent of any standard text of English history. (d) Science, the equivalent of work done in any first-class high school in physics, physical geography, or agricultural culture. (e) Pedagogy, the equivalent of Roark's Psychology in Education, Baldwin's Management and Methods, the Teaching of English, the Teaching of History and Civics, books in the Teachers' Reading Circle Course for 1905

Grades are limited by the school law to three subjects per term of the Summer School, only two of which can be in approved subjects.

TIME OF SESSION.

The new regulations require that the Summer School must be conducted for a period of not less than fifty-four days under direction and tuition of teachers approved by the State Board of Education. The term for 1906 will begin June 18 and continue till August 18.

FEE.

The tuition for the term of nine weeks is \$9.00.

BOARDING.

Boarding and room can be had in either of the new commodious brick dormitories or in private families at reasonable rates.

FORMER SESSIONS.

The past sessions were a decided success. There was a good attendance of promising young people, who were delighted with the progress they made in so short a time. Many of them, even though they received the desired grades, will return to continue their study in other branches. The cool rooms, the ample shade trees and the large campus were a source of comfort to both professors and students.

For particulars write to

GEO. B. ADDICKS, President.
or HENRY VOSHOLL, Director.

WARRENTON, MO.

Commercial Department.

PROF. STUECKEMANN, Acting Principal.

In this department special facilities are offered for gaining a thorough practical knowledge of commercial affairs by combining actual business practice with theory. The controlling principle is not in how short a time a student may be graduated, but how thoroughly he may be prepared for the business profession. Students, therefore, having had but limited opportunities to master the elementary branches are advised to take the studies of the General Preparatory Course in addition to the required studies of the Business Course. This may be done without additional charges.

Methods.

The most practical methods of presenting the subject of bookkeeping are used, in which the business transaction is made the starting point instead of the ledger account. The student transacts all business in his own name, uses current dates, makes out, issues, and receives all classes of commercial paper in a business way, handles college currency and merchandise and besides makes the necessary records in his books.

Individual Instruction.

The student does all of his work in bookkeeping in the school-rooms under the supervision of the teacher, who gives him individual instruction whenever necessary. No one is kept back to stay with a class, which is the case in many schools. Each one, therefore is independent of others and advances according to his ability

of mastering the work before him. Some class-work, however, is done at times, in which the more important topics of bookkeeping are discussed. This gives the student a thorough drill in the theory of accounts.

Time to Enter.

Students may enter at any time during the school-year, but, if possible, it would be better for all those wishing to take the full course to enter at the opening of school in September.

Studies.

The studies required in the course which are necessary to receive a diploma, are: *Bookkeeping, Actual Business Practice, Commercial Law, Arithmetic, Grammar, Spelling, Business Penmanship, Business Letter Writing, Business Forms, and Rapid Calculations.*

The minimum grade required in each branch is 85 per cent.

Actual Business.

We teach actual business, using the same method that is used in the best business colleges.

While engaged in Actual Business Practice, the student carries on a real business. He buys from his fellow students, sells to them, receives college currency and pays it out, keeps a bank account, has dealings with wholesale houses, a freight office and other offices besides these. In addition to this work in the school-room, the student has dealing with students of other colleges, thus enabling him to do business by correspondence and to see the grade of work done in other schools.

This causes the student to take an actual personal interest in his work, and as a result he is a delighted and interested worker from start to finish.

Short-hand and Type-writing.

A practical acquaintance with the art of shorthand is highly favorable to the improvement of the mind, invigorating all faculties and drawing forth all its resources. The close attention requisite in following the voice of the speaker induces habits of patience, perseverance and watchfulness which will gradually extend themselves to other pursuits and avocations and at length inure the writer to exercise them on every occasion in life. The necessity of adhering to the train of thought which runs through the discourse will

Specimen of Ornamental Penmanship.

naturally have a tendency to endue the mind with quickness of apprehension and will impart a readiness of perception as well as a methodical simplicity of arrangement which can not fail to conduce greatly to mental discipline. Besides it improves the memory, excites invention, matures the judgment, and develops precision, vigilance and perseverance. It enables one to treasure up for future study the substance of lectures, sermons, etc.

Though it may seem more immediately calculated for those whose business it is to record the eloquence of public men and proceedings of popular assemblies, yet it offers its assistance to persons of every rank and station in life.

Students are given opportunity to practice shorthand in the President's office as soon as they are capable.

Tuition.

The Charge for tuition for a term of ten weeks is, for the Business Course \$12.00, for Short-hand and Type-writing \$10.00. Scholarships are also sold. The price of a scholarship for the Business Course is \$35.00, for the Short-hand Course \$30.00. These scholarships are not transferable nor redeemable except by death in the early part of the course.

Art Room in Kessler Hall.

Jubilee Chapel.

Art Department.

Miss AMELIA ZIMMERMANN, Director.

A practical knowledge of the principles of Drawing is necessary in every department of the business world.

Perspective Drawing is taught from the beginning to the end of the course.

Study of Historic Architecture and Ornament, Designing, Drawing from casts, from still-life, from nature and from the pose, are required.

(The course of study is planned to prepare students for the teaching of drawing in public schools and to give instruction to those intending to make art a profession.)

Pastel, tapestry and china-painting are taught.

FIRST YEAR.

Mechanical and free-hand perspective; object drawing in pencil and charcoal; design and composition. Beginning History of Art; copying fine pictures in oil and water-color.

SECOND YEAR.

Perspective drawing and sketching from nature, from casts and from life; pen and ink drawing; Greek and Roman History of Art; painting from still-life, from nature and from models.

ADVANCED COURSE.

Those who have completed the regular course and desire to continue, are given a year of advance work.

The course consists of original work from nature, in any material used in the school.

This course is expected to require three hours of instruction daily in the studio.

Diplomas are granted pupils who complete the course in Art.

Students from Mt. Olive, Ill. Congregation.

Geology Class.

Physical Culture and Military Tactics.

GUSTAV A. SCHMIDT, Physical Director.

PHYSICAL CULTURE.

The Gymnasium gives to the students of Central Wesleyan College opportunities for physical training and development. It is well equipped with Ladders, Bok, Spring-boards, Parallel Bars, Chest Weights, Flying Rings, Swinging Ropes, Dumbbells, Indian Clubs, Wands, Tumbling Mats, Medicine Balls, Discus, Quoits, Jumping Stands, Vault Poles and in fact everything that belongs to a Modern Gymnasium.

Thorough training in physical exercises is given, the American, Swedish, German and Delsarte systems being used. All the class exercises, club, dumbbell, single-stick, and wand are carefully arranged in groups so that they can easily be memorized. Besides these drills, free movements, setting up work, and other forms of developing are given from time to time.

Jumping, running, and turning exercises are indulged in freely. Baseball and basket ball games are engaged in to a moderate degree. Croquet and Lawn Tennis grounds have been prepared near the college buildings.

Our campus and grounds are ample and well adapted to outdoor sports and our students are encouraged to take the requisite amount of physical exercise so necessary to keep the body in vigorous health. The playing field develops courage and self-control invaluable to young men.

An effort is made to make the Gymnasium not merely a school for muscular development, but rather a place for recreation in which mind and body are refreshed and strengthened. Our aim is not to develop specialists, but to equip every graduate with physical vigor and nervous strength, without which no man can long survive the nervous strain of active life under modern conditions. The endeavor is to make all sports a source of moral as well as of physical strength.

Classes in Physical Culture are organized for the young ladies. They meet twice a week and are proving quite popular and yielding excellent results. The "Self Expression and Health or the Americanized Delsarte Culture" is used as a basis for the work, which aims to undo bad, wasteful physical habits and establish healthful, graceful ones in their stead. Each day's work is carried on along three general lines, namely: 1. Relaxation exercises to free the body from all restriction; 2. Energizing ones to invigorate and strengthen (much attention is given to correct breathing); 3. Harmonious ones to tranquilize the nerves.

On request of parents or by permission of the President or Physical Director students may be excused from Gymnasium exercises.

MILITARY DEPARTMENT.

GUSTAV A. SCHMIDT, Commandant.

Gustav A. Schmidt, Capt.	J. Sandmeyer, 2d Corp.
C. M. Blackmun, 1st Lieut.	A. Hoech, 1st Corp.
Chas. Krummel, 2d Lieut.	A. Kessler, 3d Corp.
Carl Zimmerli, Adjutant.	Raymond Addicks, Drummer.
Ben. Frick, 1st Sergt.	Marshall Morsey, Drummer,
W. Mahle, 2d Sergt.	Wesley Tanler, Bugler.
M. Stueckemann, 3d Sergt.	

Military drill in colleges is recognized not only for its military, physical and hygienic value, but also because it gives to the student a certain mental and moral training, which he gains naturally during the drill exercises, for which thus far no substitute has been found.

A good authority says :

"The drill affords excellent but, not violent exercise, at that time of day when the mind begins to grow weary with continued application. By its discipline, boys learn to walk erect, and to hold the head and shoulders in proper position at all times, and thus to breathe better. It counteracts the tendency to become round-shouldered, and to walk with a languid gait, so often observed at the period of rapid growth, especially in close students."

While, therefore, we do not aim to make technical soldiers of our students, we do aim to be so thorough as to gain the good results above indicated.

The Cadets receive military drill under an experienced commandant, the guns used are Springfield rifles, U. S. Army pattern, which with accoutrements, the state furnishes free of charge. The Cadet uniform is similar to that of West Point. It consists of a gray coat, a dark blue cap, and gray trousers with black stripe.

The cap is the usual military Cadet cap with gold embroidered C. W. C. device. These uniforms are made by the best military tailors under contract and can be secured very cheap. Cadet officers and non-commissioned officers wear the West Point Infantry Insignia of rank. Students desiring to enter the College Battalion are advised to purchase one suit less at home, so that they can buy a uniform here. In fact, all students would do well to buy this uniform as it is cheap and wears better than other suits and can be worn regularly.

The Military Company participated in the dedication of the World's Fair at St. Louis in company with the National Guards of Missouri.

Music Director's Studio in Kessler Hall.

CONSERVATORY OF MUSIC.

ZENO NAGEL, Director,
Professor of Piano, Singing and Theory of Music.

EDITH HAENSSLER, Stringed Instruments.

MYRTA L. NAGEL, Piano and Vocal.

MAUDE M. DREW, Piano and Harmony.

GENERAL REMARKS.

It is the aim of this department to give those who come under its supervision in the regular course the best musical education possible, and to give those who come in only for a short time such instruction and help as shall be of the greatest benefit to them and to inspire within all its students an aspiration for the highest ideals in art and in every day life as well.

The director has had superior educational advantages, having studied with some of the best masters of this country and spent

three years in Leipsic, Germany. The work during the past year has been very gratifying and excellent results are being obtained.

The Conservatory is to music what the college is to a literary and scientific education. As no one now would think of educating his children exclusively by private instruction, so it is no longer expected that any one will reach any degree of excellence in music who takes private lessons only. The number of students all bent on the same subject, the friendly rivalry springing from it, the regularity with which lessons are given, the special advantages of hearing the best musicians, the opportunity of playing together with others of the same grade, and of performing in public, in fact, the whole surroundings of the conservatory are favorable to learning. Besides these special advantages for learning, the cheapness, as compared with private instruction, if it should be given in all branches required of a competent musician, is an important consideration.

The branches taught are PIANO, VOICE, ORGAN (reed and pedal), VIOLIN and other orchestral instruments, as well as THEORY, SIGHT-SINGING, etc. The time needed to complete a course will depend on the ability and industry of the pupil.

COURSES OF STUDY.

PIANO.

It is impossible to arrange a course of study that shall be adapted to any and all students. It is the plan of the conservatory to use such material as shall be adapted to the needs of each individual student. It would be useless to attempt to give all the material used in the various courses. The following is an outline which will give an idea as to the technical difficulty of the studies used in the various courses:

Preparatory—Kohler, Practical Method, Vol. I and II; National Graded Course, Book I and II; Kohler, Short School of Velocity; Alois Schmitt, Preparatory Exercises; Duvernoy op. 176 and 120; Studies by Loeschhorn, Bertini, Gurlitt, Heller and others. Easy pieces and Sonatines.

Intermediate—Kohler, Practical Method, Vol. III; National Graded Course, Book III; Bach, Little Preludes and Fugues and Two-Part Inventions; Studies by Heller, Doering, Berens, Le Couppey, Lemoine, Czerny op. 299, Doering Octave Studies, and such other studies as may be required for each individual student. Pieces and easy sonatas by Clementi, Haydn, Mozart and Beethoven, are used in this grade. Theory should be be-

gun, and the work as outlined in the first year of the theory courses should be completed in this grade.

Teachers' Course—National Graded Course, Book IV. and V.; Studies by Jensen, Heller, Cramer, Clementi and others; Kullak Octave Studies. Pieces by the best modern composers, selections from the standard works and sonatas and concertos are used in this grade. The work outlined in the first three years of the theory course is required to complete this course, for which a diploma will be given.

Artists' Course—Bach Fugues; Studies by Cramer, Clementi, Chopin, Moscheles and Rubenstein. To receive this diploma, students must have an excellent record in all lines of work and conduct and be successful in solo playing of a high grade, and must have at least a high school education.

A recital is required of all who graduate from either the Teachers' or Artists' Course. Students who do not complete a course will receive a certificate, on application, showing what work they have done.

VOICE.

It is the aim of this department to cultivate an intelligent and artistic style of singing. The cultivation of the voice consists in the development of pure tone, and its easy, natural use and control in singing. Correct use of the breath, intonation, attack, legato, and phrasing are the leading features of technical drill.

The well known Sieber, Abt, Concone, Spicker, Luetgen, and other studies are used. Songs by the best modern composers as well as solos from oratorios and other standard works are studied.

The importance of studying vocal music cannot be overestimated. It is especially beneficial to the piano student. The more a pupil knows about singing, the better he will play his instrument. The instrumentalist who has no conception of the musical product of the human voice at its best, falls far short of the possibilities of expression in his instrument, and to which he might more nearly attain through the study of vocal music. Certificates will be granted to students who have acquired considerable proficiency in singing and have had enough piano to play accompaniments acceptably.

From three to four years are required to complete the entire course, for which a diploma will be granted.

MUSICAL THEORY.

Recognizing the absolute necessity of a thorough knowledge of musical theory, especially for those who desire to make music a profession, the department insists upon a thorough study of this branch, Harmony, Counterpoint, Canon, Fugue, Composition, Ear-Training, Sight-Singing, and Musical History are taught in classes or privately.

The following is an outline of the work:

	<i>First Year.</i>	<i>Second Year.</i>	<i>Third Year.</i>	<i>Fourth Year.</i>
<i>First Term.</i>	Sight-Singing, Scales and Intervals.	Harmony, Theory,	Counterpoint.	Fugue.
<i>Second Term.</i>	Sight-Singing, Intervals and Chords.	Harmony, Theory.	Counterpoint, History.	Fugue.
<i>Third Term.</i>	Ear-Training, Harmony.	Harmony, Analysis.	Counterpoint, History.	Composition, Score-Reading.
<i>Fourth Term.</i>	Ear-Training. Harmony.	Harmony, Analysis, Composition.	Practical Composition.	Composition, Orchestration.

VIOLIN.

The following course will indicate the work required in the department:

1. Violin Methods by Henning, Books I. & II.; Exercises by Dancla; Kayser, Book I.; Easy Solos by Dancla, Op. 89.
2. Kayser, Book II.; Mazas Special Studies; Exercises by Schradieck; Dancla, Solos by Dancla, Op. 118; H. F. Farmer and Bohm.
3. Kreutzer, 40 Etudes; Alard, Scale Studies; Fiorillo Studies; Selections by De Beriot, Farmer, Hauser and Bohm.
4. Mazas, 25 Brilliant Studies; Art of Bowing by Tartini; Concertos by Viotti; De Beriot, and Kreutzer; Rhode Caprices; Dancla, Op. 73.
5. Schradieck, Books I. & II.; Mazas Artists Studies; Alard, 10 Characteristic Studies; Concertos by David, Rode, De Beriot, etc.
6. Campagnoli, seven Positions; Cramer, 33 Studies (by Abel); Bach, six Sonatas for Violin alone; Sonatas and Concert Selections, by Spohr, David, Vieuxtemps, Wieniawski, Mendelssohn, Bruch, Beethoven.

ORCHESTRAL PRACTICE.

Those who are competent players on any orchestral instrument are given opportunity for practice in the College Orchestra, which meets weekly and furnishes a part of the music in the amateur concerts.

STUDENTS' REHEARSALS.

Among the most important incidental advantages of the conservatory are the rehearsals, at which the students perform such pieces as have been assigned to them in their regular lessons. This gives the students an opportunity to gain self-control in public appearance and to become acquainted with many works that they would otherwise have no opportunity of hearing.

CHORUS AND CHAPEL CHOIR.

A chorus of mixed voices meets once a week for the study of some of the many excellent choral works. This year Joan of Arc by A. R. Gaul, was rendered at the May Festival, and Haydn's "Creation" has been studied to be given at commencement. The Chapel Choir of twelve voices meets every week for practice and sings on Sunday for both morning and evening service.

The Chorus gave a concert before the Christmas Holidays, on which occasion "The Vision of St. John," by Coombs, was rendered.

QUARTETTES.

The College Male Quartette and a Ladies' and a Mixed Quartette have been maintained during the year. These quartettes have sung on numerous occasions, such as special society programs and recitals, at church and other meetings. A Maennerchor was organized, composed of members of the Germania Verein. Examinations for the quartettes and choir take place early in the Fall term. There are usually a number of vacancies.

ARTISTS' RECITAL COURSE.

The opportunity of hearing good music rendered by competent performers is of no less value than the class room instruction. To give the students this advantage, a series of recitals is given each year, for which the best talent available is secured. This year five concerts were given. The following is a specimen of the programs rendered:

ARTIST RECITAL

by **Bradford Mills, Baritone** and **Wm. E. Duckwitz, Pianist.**

1. { Prelude in C Sharp minor Rachmanninoff.
A la bienaïme Schuett.
Mr. Duckwitz.
2. { Air from Herodiade, Vision Fugative Massenet.
Still wie die Nacht Bohm.
Love is a Bubble Allisten.
Mr. Mills.
3. { Kamenni Ostro Rubinstein.
Etude in C minor Chopin.
Mr. Duckwitz.
4. { Hungarian Folk Song: "Had a horse" Korbay.
A Barque at Midnight Lambert.
Roses in June German.
Mr. Mills.
5. { Liebes-Traum Liszt.
Ballade Reinecke.
Mr. Duckwitz.

LICHTENSTEIN QUARTET.

VICTOR LICHTENSTEIN, 1st Violin.

LOUIS KIELSMEYER, Viola.

JACOB BLUMBERG, 2nd Violin.

HENRY BROECKAERT, Cello.

1. Quartet in D, No. 21.— (a) Allegretto; (b) Andante; (c) Menuetto
(d) Allegretto Mozart (1756-1791)
2. { Molto Lento (Music of the Spheres) From Op. 17, No. 2.
Rubinstein (1830-1894.)
In Hungarian Style, from Op. 15 Glazounow (1865.)
